Skills & Technologies

- ➔ **Programming Languages:** Java , C , Python
- ➔ **Web Technologies:** HTML5, CSS3, JavaScript
- ➔ **AWS :**EC2, RDS, S3
- ➔ **J2EE:** Jsp, Servlets, Hibernate, Spring-mvc, Spring-boot
- ➔ **Database:** MySQL

Experience

- ➔ **J2EE intern at softvan (Nov 2019 – Feb 2020)**
- ➔ **J2EE trainee at softvan (Jun 2018 – Sep - 2019)**

Projects

- **Passkeeper (Personal)**
One place to save all the passwords, username and other credentials. Basically the durable web application is developed in spring-boot with maven to keep all the credentials safe with encryption. This is achieved by various aws services like RDS, S3 and EC2. Also providing telegram bot to save and send the credentials directly using telegram. The main feature is the authentication system which uses face authentication.
- **E-PhotoStudio (Academic)**
Providing one common platform for photographers as well as customers, to hiring photographers for events. Developed in spring framework in which customers can view profiles of photographer and select them as per their needs. Also photographer can accept or reject the application of customer.
It is also developed in java swing and php individually.

Courses & Certifications

- ➔ **Coursera**
- AWS Fundamentals Going Cloud-Native
- RESTful API with HTTP and JavaScript
- ➔ **Hackerrank**
- Java (Basic)

Education

B.E. Computer Engineering

CGPA: 9.19

Vishwakarma Government Engineering College.

2017-2021

H.S.C.

Percentage: 88.30 %

Aashadeep Vidhyalaya

2015-2017

Surat

S.S.C.

Percentage: 90.00 %

Suncity English School

Surat

Achievements
